The DANCES OF UNIVERSAL PEACE (DUP) are meditative circle dances that are currently danced all over the world, were inspired and given as a practice for inner peace and as a contribution to peace on Earth. They are an active form of meditation and facilitate the opening of the heart, reminding us and making manifest the Oneness, of which we are all a part, beyond our differences.

Chanting mantras and sacred phrases from different wisdom traditions and through simple and universal movements, we remember and vibrate values and qualities that return us to the harmony, peace and unity that, beyond the restlessness of the mind, are found naturally in the deepest part of us.

No previous dance or music experience is required, everyone is welcome!

More info about DUP [here](#).

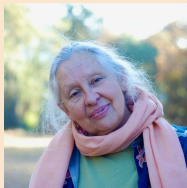

## **We invite the little ones to be part of this gathering.**

If you have children, nieces, nephews, grandchildren, it is a wonderful opportunity for them to be part of this gathering. We open a space of self-management where parents and volunteers can propose activities, games and dynamics in a parallel space to the dances, to share with children. We will have a special Dances session for them.

If you have any questions, please contact the organization

## **Who will lead the Gathering?**

### **Sylvia Murillo (Fiba)**

The great mother of the Dances of Universal Peace in Latin America, leader and mentor. She has been dancing and guiding DUP for 28 years. Mother of two wonderful men and music teacher. The dances are medicine for her life and it is from there that she shares them in various parts of the world. Since her beginnings she has worked with the Lord's Prayer as a form of deep healing of her own being and her lineage.

Much more can be said about Sylvia, however we invite you to experience by your own all she has to share.

"I am happy and honored to be back in Spain to share with that precious family" Fiba
